

Goshen Hospital Summer Patient Care Apprentice

If you are a sophomore nursing student in an accredited Nursing program and interested in gaining healthcare experience, the Patient Care Apprentice program at Goshen Hospital offers you this opportunity. In the Patient Care Apprentice program, you will work alongside the nursing team as you learn more about a variety of nursing departments and other healthcare disciplines.

Why would you choose a Magnet[®] facility?

Hospitals who receive Magnet designation have met standards of nursing care excellence established by the American Nurses Credentialing Center. Goshen Hospital was one of the first hospitals in the area to receive Magnet status and earned this designation four times. Receiving your training at a Magnet facility ensures you will experience a culture of collaboration, support and respect – as well as learn how to provide patient (and family) care to make a difference in people's lives.
