Biography

Daniel Diener is a board-certified surgeon specializing in minimally invasive surgery of the chest, abdomen, pelvis, vascular system and endocrine system, as well as wounds. He utilizes the latest medical technologies, such as endovascular and laparoscopy, to improve outcomes and reduce recovery times for his patients.

Philosophy of Care

As a dedicated physician, Dr. Diener is uniquely qualified to diagnose health issues and recommend the most appropriate course of treatment. In some cases, he may prescribe preventive steps to help patients maintain a healthy and active lifestyle without surgical intervention.

Research/Clinical Interest

Minimally invasive surgery:

- chest
- abdomen
- pelvis
- vascular
- endocrine
- wound care management
