About Me

Dr. Arjuna Cuddeback is a board certified and fellowship trained orthopedic surgeon at Goshen Physicians Orthopedics & Sports Medicine. He assesses and treats a full spectrum of musculoskeletal disorders ranging from arthritis to work and sports injuries, as well as fractures. He also has advanced training in lower extremity trauma and adult foot and ankle reconstruction.

His ultimate goal for his patients is a successful return to work, sports or a desired level of physical activity. A former semi-professional soccer player, Dr. Cuddeback is passionate about physical fitness and sports. He was captain of his university men's club soccer team, has coached a girls' high school soccer team and been assistant coach for a men's varsity soccer team during medical school. In his free time, he also enjoys carpentry, traveling, music and movies.

Philosophy of Care

Regardless of whether a patient's pain or injury requires conservative, non-operative intervention or a surgical procedure, Dr. Cuddeback tailors his treatment plan to best fit each patient and his or her lifestyle. His philosophy is that each patient is a whole person with individual needs. He believes open communication and mutual respect are the cornerstones of a successful doctor-patient relationship.
