Biography

Irina Sparks, MD, is a radiation oncologist at Goshen Center for Cancer Care. She utilizes tumor directed radiation treatments such as 3-D Conformal (3-DCRT) and Intensity Modulated Radiation Therapy (IMRT) to treat patients with a wide range of cancers and some benign tumors. She also specializes in advanced and highly targeted radiation techniques that include Stereotactic Radiation Surgery (SRS), Stereotactic Body Radiation (SBRT) and High Dose Rate Brachytherapy (HDR). She makes all efforts to deliver the most effective radiation dose to the tumor while protecting normal organs and tissues to maximize the success of therapy and to minimize its side effects.

Outside of the workplace, Dr. Sparks enjoys spending time outdoors with her family and training in martial arts with her son. She is fluent in Russian.

Philosophy of Care

A background in natural medicine guides Dr. Sparks' approach to care. She focuses on treating the whole person, not only the disease. She also believes in providing patients with the same compassion and care as she would a family member.

Research/Clinical Interest

- Breast
- Prostate
- Lung
- Skin
- Head and neck
- Gastrointestinal
- Genitourinary systems
- Central nervous system
- Sarcomas
- Lymphomas

Techniques/Procedures

- Stereotactic Radiation Surgery (SRS)
- Stereotactic Body Radiation (SBRT)
- High Dose Rate Brachytherapy (HDR)
- Intraoperative Radiation Therapy (IORT)

Education

Board Certified - Radiation Oncology

Education and training:

Doctor of Medicine

Medical College of Wisconsin, Milwaukee, WI

Doctor of Naturopathic Medicine

National College of Naturopathic Medicine, Portland, OR

Residency:

Radiation Oncology
