Biography

Doug Liepert, MD, is double-board certified in ear, nose and throat medicine and sleep medicine. He provides expert care for patients of all ages who have conditions that affect their sleep, sinuses and breathing.

Dr. Liepert is highly trained and experienced in minimally invasive procedures and office-based nasal and sinus surgery to help patients breathe and sleep better. He also offers home sleep testing, comprehensive sleep evaluations, CPAP (continuous positive airway pressure) therapy and other sleep apnea therapies.

Philosophy of Care

Dr. Liepert believes a team approach delivers the best care for patients with sleep disorders. He works closely with experts in a variety of disciplines to provide continuity of care and treatment tailored to fit each patient's needs. This includes the collaboration with dental sleep professionals.

Research/Clinical Interest

- Sleep-disordered breathing
- Osseointegration and image-guided sinus surgery
- Minimally invasive nasal procedures
- Chronic sinusitis
- Sleep apnea
