### About Me

David C. Kay, MD, is a doctor of internal medicine practicing in the offices of Goshen Physicians Internal Medicine. As a general internist, he practices in a variety of settings. His training uniquely qualifies him to practice primary care and follow patients over the duration of their adult lives and establish long and rewarding personal relationships with them. In addition to providing care in the outpatient setting, Dr. Kay has also chosen to use his training to provide the highest quality of care for his patients in the hospital setting. Dr. Kay has the expertise to handle a broad spectrum of illnesses that affect adults. He is a recognized expert in the diagnosis and treatment of chronic illness, health promotion and disease prevention.

### Philosophy of Care

Dr. Kay is dedicated to providing his patients with personalized attention while addressing the wide variety of medical problems faced by adults. Dr. Kay's goal is to provide comprehensive and compassionate health care which includes wellness counseling, disease prevention, diagnosis and cure. He is also committed to providing quality, one-on-one health care to each of his patients.

### Research/Clinical Interest
