Biography

Leah R. Miller, FNP, RN-C, MSN is a board certified nurse practitioner who provides medical care at Goshen Physicians NeuroCare Center. With more than 28 years of experience, Leah treats headaches, dementia, seizures, tremors, movement disorders, multiple sclerosis, neuropathy and stroke. Leah worked for more than 25 years in the area of pain management, starting the program at Goshen Physicians Pain Management. She also developed the first acute, chronic, and cancer pain management program at the Center for Pain Management in Elkhart where she served as the clinical coordinator. In her free time, Leah and her family are very active in the community, enjoying church, school, athletic and voluntary events.

Philosophy of Care

Leah believes that the first step to treating a health problem is to listen closely to her patient's story. Each person has a unique journey and she feels honored to walk beside people when their health is not what they wish.
