About

BIOGRAPHY

Dr. Tony Gauthier is a board-certified urologist at Goshen Physicians Urology. He provides diagnosis and treatment for patients with disorders of the urinary tract system and male reproductive organs. He specializes in robotic-assisted surgery and minimally invasive procedures to treat enlarged prostate glands and kidney stone disease. Dr. Gauthier also has a special interest in treating urinary incontinence and cancers of the kidney, ureter, bladder and prostate.

Away from clinical practice, Dr. Gauthier enjoys spending time with his wife and family. Music, sports and fishing also give him hours of enjoyment.

PHILOSOPHY OF CARE

Personalized patient care is at the center of Dr. Gauthier's approach. He develops quality relationships with patients and encourages them to take an active role in making decisions about their care.
