## About

### BIOGRAPHY

Dr. Darah Regal is a clinical audiologist at Goshen Physicians ENT, Speech & Audiology. She cares for patients of all ages who experience challenges with hearing loss. Dr. Regal is specially trained in central auditory processing – the ability to use, differentiate and understand what is heard in different listening environments.

Hearing conservation, tinnitus and hearing services for children in educational settings hold strong interest for Dr. Regal. She also has served as an educator in audiology at both the undergraduate and graduate level.

Dr. Regal shares her passion for audiology with her husband, Jeffery, who also is an audiologist. Away from their clinical practices, the Regals are often engaged in volunteer activities in the community or traveling to a favorite fishing spot. The door is always open at the Regal household for gatherings with family, including one adorable grandson.

### PHILOSOPHY OF CARE

Dr. Regal thrives on making a positive impact on people's lives through her clinical care. Her approach begins with listening to patients to learn about their concerns and challenges. She then works closely with patients and family members to provide the best possible solutions that fit their individual needs.
