About

BIOGRAPHY

Jessica Vander Molen is a board certified nurse practitioner at Goshen Center for Cancer Care. She provides comprehensive, compassionate care to patients throughout their cancer journey—from diagnosis and treatment planning to surveillance and survivorship. Jessica works closely with oncologists and a multidisciplinary team to deliver holistic, evidence-based care that addresses the physical, emotional, and psychological needs of each patient.

At Goshen Center for Cancer Care, Jessica treats a wide range of oncology and hematology patients. This includes individuals actively undergoing cancer treatment, those under surveillance following treatment, and patients with hematologic conditions who require ongoing monitoring and care.

Outside of her clinical role, Jessica is a dedicated wife and mother of four active children. When she's not at work, she's often cheering from the sidelines at volleyball, gymnastics, or baseball games. She also coaches elementary volleyball and enjoys spending time outdoors, especially camping with her family.

PHILOSOPHY OF CARE

Jessica believes in building strong relationships with her patients and their families. She takes the time to understand who they are, what matters most to them and meets them where they are in their journey. Her approach is rooted in compassion, empathy and holistic care—ensuring patients feel seen, heard, and empowered to take an active role in their care.
