## About

### BIOGRAPHY

Dr. Justin Lightburn is an Interventional Radiologist at Goshen Hospital where he performs vascular, non-vascular and interventional oncologic procedures. He serves as the Director of Interventional Radiology for Goshen Hospital.

Dr. Lightburn specializes in endovascular and interventional oncology procedures. His endovascular procedures include common carotid artery stent placements, carotid ultrasounds, stenting, ablations and venography. He treats peripheral artery disease, vascular malformation, carotid artery disease, aortic aneurysm, cerebrovascular disease and venous insufficiency. His interventional oncology procedures include radioembolization of tumors, chemoembolization of tumors and percutaneous ablation of tumors.

### PHILOSOPHY OF CARE

Dr. Lightburn focuses on each patient's needs and values mutual communication to provide the best possible care.
