About

BIOGRAPHY

Dr. Patricia Bezerra is an endocrinologist at Goshen Physicians Endocrinology. She treats patients with diabetes, thyroid disease, osteoporosis, adrenal disorders, parathyroid disorders and other endocrine conditions. She also provides support for patients seeking medical weight management.

Dr. Bezerra completed internal medicine residency training in Cleveland, Ohio, before pursuing advanced fellowship training in endocrinology, diabetes and metabolism at the University of Cincinnati College of Medicine. She has a special interest in helping patients prevent and manage diabetes-related complications and is passionate about patient education, empowering individuals to better understand their health and treatment options.

PHILOSOPHY OF CARE

Dr. Bezerra believes the best outcomes are achieved when patients and providers work together as partners. She values empathy, open communication and shared decision-making, helping patients understand their medical conditions and actively participate in their care. Her goal is to improve each patient's quality of life through personalized treatment plans that support their long-term health and wellness.
